

Canvassing

You need: a charged phone. Location is optional.

- 1 Sign in at **amplifyvote.com**, click **Canvass** on your campaign, then **Enter**.
- 2 Blue pins are homes to visit. Purple pins are buildings with several units. Green pins are done.
- 3 Tap a pin, then a person, and ask the survey questions. Tap **Submit**.
- 4 Nobody home? Use the buttons under **Nobody answered?** to record the whole household at once.
- 5 Use **List** to work street by street, and **Reload** to see doors your team finished.
- 6 Optional: tap **Location** to see yourself on the map, and **Follow** to keep it centered on you. Teammates in this canvass who also share will see you, and you'll see them.

Remember: only choose *Do Not Contact* when a person asks not to be contacted. If you shared your location, turn it off before you put your phone away.
