

Petitions

You need: a phone or tablet.

- 1 Sign in at **amplifyvote.com**, click **Petition** on your campaign, then **Enter**.
- 2 Enter the signer's first and last name and phone number, plus email if it's asked for.
- 3 Check **Opt in to texting** or **Opt in to email** only if they say yes.
- 4 Enter their zip code (and address, if it's asked for) and answer the questions.
- 5 Click **Save signature**. The count at the top goes up.

Remember: never check an opt-in box for someone who didn't agree to it.
