

Phone banking

You need: a computer or phone with a microphone. A headset helps.

- 1 Go to **amplifyvote.com** and sign in.
- 2 On your campaign's card, click **Phonebank**, then **Enter**.
- 3 Open a resident and click **Call**. Allow the microphone the first time.
- 4 Ask the survey questions and check the answers as you go.
- 5 Click **Hang up**, then **Submit**. No answer? Click the matching button, like *Not Home* or *Wrong Number*.
- 6 When everyone at the address has a result, the next household loads.

Remember: you have to call someone before you can record a result. Use *Do Not Contact* only when a person asks for it.
