

Texting

You need: a computer or phone. No personal phone number is used.

- 1 Sign in at **amplifyvote.com**, click **Texting** on your campaign, then **Enter**.
- 2 On the **Send** tab, click **Load more households**.
- 3 Check the **Message preview**, then press send for each person, or use **Send all**.
- 4 Open **Conversations** to answer replies. A red badge shows who's waiting.
- 5 When a conversation is over, click **Finish** and record what you learned.

Remember: replies often come hours later, so check Conversations again.
If someone asks to stop, record *Do Not Contact*.
